

SENSOR LA003HWC

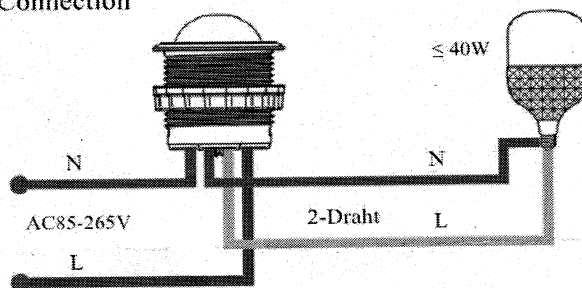

Product Parameter

Model	LA003HWC
Voltage	AC85-265V
Size	D34×H38.5mm
Time Delay	15Sec, 60Sec, 5Min (Adjustable)
Activation Light	2Lux, 25Lux, 24H (Adjustable)
Rated Load	LED lamp ≤ 40W Incandescent lamp ≤ 200W Minimum load 1W
Detection Distance	6~8m
Detection Angle	≤ 120°
Working Temperature	-45~45°C
Degree of Protection	IP20

Product Size

Connection

Attention

1. Please make sure that the load power is within the limited range.
2. The emitting surface of the lamp should not face to the sensor directly.
3. Please connect N & L wires strictly according to the instruction, otherwise the sensor will be damaged if the wires were reversely connected.
4. Please turn off the power source before connecting the wires.
5. We recommend contacting a professional electrician to avoid safety issues and ensure proper and hassle-free installation.
